ETERNA

A Touch Of Couture

1863
— by —
ETERNA

This elegant, masterfully crafted blouse made from the finest poplin fabric is one of the highlights of the Spring/Summer collection.

Effortlessly Smart

Comfortable and natural, perfect for versatile styling and smart casual looks: The fine Oxford fabric sets ETERNA apart as a specialist. Graphic designs, available in both bicolor and multicolor options, make the Oxford a must-have companion this summer.

Refined Details

Sunset Shades

Inspired by sunset shades and watercolour painting, this collection captivates with designs featuring gradients of colours, either in flowing or dotted patterns.

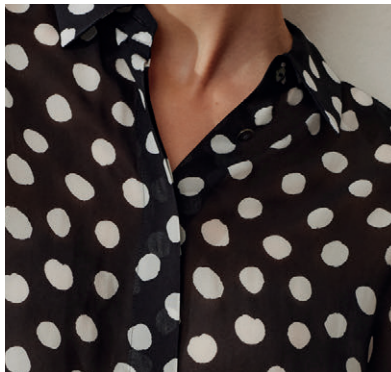

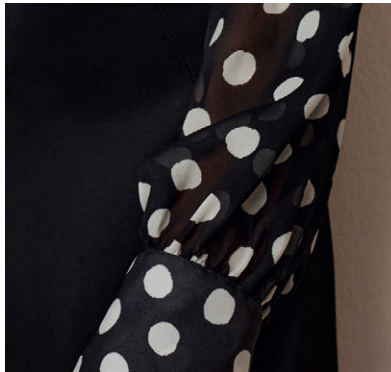

Let's celebrate!

This summer's festivities demand an extra touch of elegance. Feminine shirt dresses with pleats and an optional tie belt made from the finest poplin fabric are sure to make a statement and capture everyone's attention.

For The Total Look

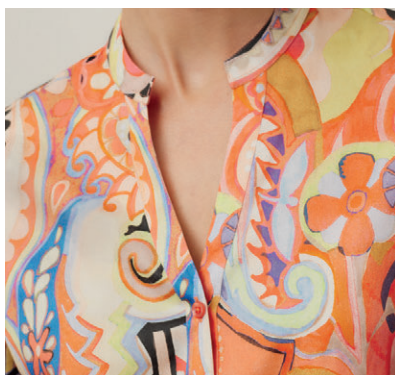

For the first time, this Spring/Summer collection also offers trousers to create complete looks. Popular choices include casually relaxed trousers made from cotton or linen with partially elasticated waistbands. These trousers pair perfectly with a matching linen oversized blouse or a relaxed overshirt.

Colourful Paisley

Retro-inspired designs in the style of the Seventies are an important impulse for the collection.
